From the Editor's Desk

The State Government through its persistent endeavour has created an ecosystem by involving academia, industry and Government to promote innovation & start-up. Therefore, the Education Department has allocated a whopping corpus of INR 500 Crores to support the early-stage student innovators and start-ups to develop their prototypes and venture into creative projects. In this regard, the **i-Hub** (Innovation Hub) runs various flagship initiatives to provide end-to-end support for innovators and start-ups.

Thanks to **Mr Sunasara H Abdulrazak**, a BCA student of our Campus, who along with his team has recently presented **National Bicycle Replacement Portal (NBRP)** in an exhibition held at **Gokul University**, and that won them INR 2.5 Lacs under SSIP (Student Start-up and Innovation Policy) Programme. This is something we can encourage students to take these kind of ventures, which will lead all of us naturalising our habits towards becoming self-reliant.

Mr Sunasara H Abdulrazak
